

Rotherham Metropolitan Borough Council

18,000M² ACROSS MULTIPLE PRODUCTS

Paragon Carpets and its sister company **Mat.Works** Flooring Solutions, have teamed up to deliver a total soft Floorcoverings package for Rotherham City Councils new offices. A number of products from the sister companies were used to help Rotherham Council deliver a project which is at the cutting edge of design.

Paragon had a number of their carpet tiles specified on the project including 4 colourways of the new Strobe product, Lime, Plasma, Spark and Ignite (Lime is a bespoke to the client, lime green), which was used extensively in breakout zones and meeting rooms. The new vibrant linear patterned carpet features a flash of lime through the pile, which was exactly what the councils in house team were looking for.

Trade Carpets, the main flooring contractor worked closely with Master Matting Installations (a specialist matting installer) to deliver the entrance matting part of the flooring package. Master Matting were brought in for their expertise in working with this type of product.

Mat.Works Supplied the main entrance matting areas which incorporated Smart Scraper a unique matting system, which can be used outside. Following this was Platoon Brush secondary carpet matting incorporating the councils crest. Andy Gordon National Sales Manager for Mat.Works said “The main entrance threw up a number of issues in terms of getting the correct amount of matting into the installation, we brought the smart scraper element outside which meant we didn’t have to encroach onto the inner floor”

Complementary colours were used in the main office areas to define space in an open plan environment. Blocks of plain pile Colour Works were used in conjunction with a complementary specially designed Strobe linear product to define the spaces between workstations and walkways to great effect. The design team wanted “the space to flow” and this has been achieved to great effect, said Colin Constable.Paragon area sales manager worked closely with the in house design team to make sure that the colour brief was met and adhered to.
